

# Topia + BCD Travel:

## Streamlining compliance management for business travel

Topia Compass delivers the most advanced solution for automated business travel and distributed workforce compliance management. By analyzing and interpreting travel bookings from BCD Travel along with other data sets, Topia Compass determines the tax and immigration implications for mobile workforces. Topia's partnership and integration with BCD makes it easy to add a world-class compliance solution to your existing business travel programs.

### How it works

1. Travel is booked and managed via BCD as usual
2. The BCD connector automatically pushes travel and booking data to Topia
3. Topia Compass analyzes and interprets the data
4. Automatic compliance alerts and notifications are sent to the appropriate recipients
5. Real-time compliance reporting across your entire program (Tax, Finance, HR, Payroll) becomes available at the click of a button

### Benefits of the joint solution

- **Visibility:** Identify distributed and mobile workforce related exposures globally before and as they emerge
- **Hard-dollar savings:** Optimize tax obligations, possibly saving millions
- **Duty of care:** Avoid costly penalties or legal action for both companies and employees from for non-compliance
- **Efficiency:** Save hundreds and thousands of hours in compliance management via automation with a delightful user-experience
- **Audit defense:** Protect against audits with verifiable and auditable data

### Get started today

BCD customers can contact their Program Manager to get started or request a demo of Topia Compass at [topia.com/demo-topia-compass](https://topia.com/demo-topia-compass). Learn more about Topia Compass on BCD's [SolutionSource Marketplace](#) or at [topia.com](https://topia.com).
